

B2001 Information Technology Management Test Analysis

Lecture	Topic	Apr-05	Aug-05	Dec-05
1	Information Technology		1a [5]	
2	Computing Trend			1b [19]
	Storage Devices			6 [25]
3	Application Software and System Software			3a [6]
5	Factors to consider for Implementing Network		2c [12]	
	Network		2a [4]	
	Internet		4a [5]	
	Public Industry Network	A1 [10]		
	LAN vs. WAN		2b [9]	
7	Processing Technique		3a [15]	
	OLAP and Data Mining	A3 [10]		
	Validation Check		3b [10]	
8	Ethics and Social Issues			7b [5]
	Control	B2 [20]		
	System Development Life Cycle (SDLC)			2 [25]
10	e-Commerce Business Model		4c [12]	4a [9]
	Advantages of e-Commerce		7a [10]	4b [8]
	Risks associated with Internet		4b [8]	4c [8]
	Revenue Streams in E-commerce		7b [5]	
	E-commerce Market Sectors		7c [5]	
11	Issues in setting up E-commerce website		7d [5]	
13	Telecommuting			3b [19]
	Globalization	B4 [20]		7a [5]
14	Computer-based Information System			1a [6]
	Type of Information System		5 [25]	5 [25]
15	Group Decision Support System (GDSS)	B1 [20]		
16	Managerial Roles for IS Support	A2 [10]		
	Strategic Advantage through IT			7d [5]
18	Training Method		6 [25]	
	Implementation	A4 [10]		
19	Setting up the IT Infrastructure			7e [5]
20	Transforming to Digital Economy			7c [5]
22	Software Quality	B3 [20]
