

Exercise 3

- Download the exercise files from <http://www.peter-lo.com/Teaching/CS08204/Exercise3.zip>, and open the Excel file “Question 3-1.xls”. Create a scatter chart comparing poll ratings against days in government, with a trend line of your choice superimposed.

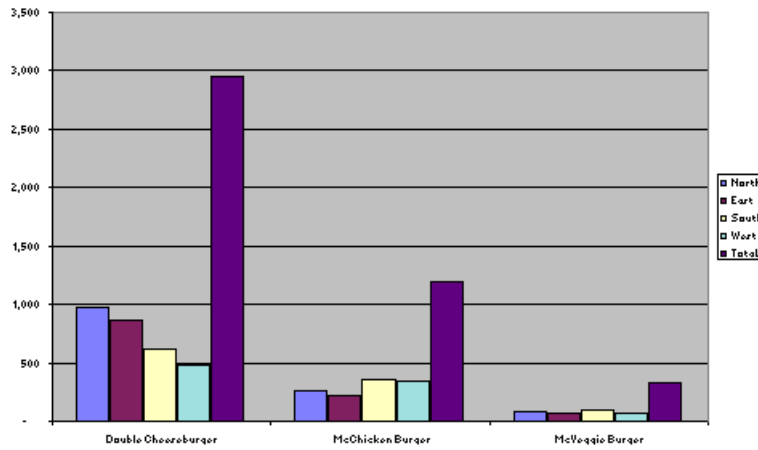

- Download the exercise files from <http://www.peter-lo.com/Teaching/CS08204/Exercise3.zip>, and open the Excel file “Question 3-2.xls”. Create a scatter chart of weight against time. Superimpose on this a trend line showing a ten-day moving average of weight against time. Given the data, guess what happened next to this Wise Owl trainer

3. Download the exercise files from <http://www.peter-lo.com/Teaching/CS08204/Exercise3.zip>, and open the Excel file “Question 3-3.xls”.

A) Create a basic column chart comparing burger sales across regions, but missing out the **Average** figures,

B) Swap the axes round, so that you are comparing areas against McDonalds products:

C) Chart the **Total** column as a line chart against a separate axis
